

FAQs

1) How do I sign my child up for the league?

A: We are a school based league so all sign-ups are done through the Art Sadtler basketball coordinator at the participating school or school's athletic director. If you don't know who these individuals are please email the league director for that contact information.

2) How do I get my school involved with the league?

A: Getting your school involved with Art Sadtler can be fairly easy provided a parent is willing to become the basketball coordinator. This coordinator will then work with league board members to setup things at your school and obtain the approval of your administration.

3) What divisions are there in Art Sadtler?

A: There are six divisions: 4th, 5th and 6th grade boys and girls.

4) Can I play for another school if my school does not participate in Art Sadtler?

A: Normally this is against our league policy. Please present your situation to the league director for a final decision.

5) Can a girl play on the boy's team?

A: Yes this is acceptable provided there is no girl's team at your school.

6) When will the league schedule be released?

A: The league schedule is normally released between mid December and the first week in January. We post the status of this on the web site.

7) When does the league start?

A: The league normally runs from the 2nd week in January to mid March with a season ending league tournament. Specific dates will be posted when the schedule is released.

8) How do I find directions to the game sites?

A: Located on the home page of the web site is a Map link that has all the addresses and maps to each game site.

9) How do multiple teams from the same grade and school get formed?

A: If there are enough players (8 minimum) to make multiple teams, the board encourages the coaches to hold a selection tryout in which both coaches separate the teams in an effort to make them as equal as possible. The league does not encourage an A and B team format.

10) Where are the games played?

A: Games are played at various schools in the Rockford and Roscoe region. Schools are welcomed to host games provided their facility meets the league requirements. Hosting games can be an excellent fundraiser for the school.

11) Who do I contact if there is a problem?

A: Please email the director with any questions or comments you may have. Depending on your email content, the league director will discuss your comments or questions with the league board. There is an email link on the web site.
